

## FOIA REPORT - JULY 2018

### **DOCUMENTS REQUESTED:**

The village is continuing to receive FOIA requests from one individual. She still requests the exact same things month after month.

- A) Billing Register/ Up Date Report - This report shows every person who lives in the village and is billed for water usage. This also means the requester is getting a condensed version of everyone's water bill in town. This report would also show if anyone is in arrears to the village and behind on paying. I continue to receive complaints about giving out personal information to anyone other than the person whose name is on the water bill. Residents are very upset!
- B) Copies of every bank statement from the State Bank of Lincoln, which includes copies of every check the village has written.
- C) Copies of all the checkbook registers from **EVERY** village account
- D) Copies of monthly Treasurers reports
- E) Copies of village board meeting minutes, which is provided on the village website

Again, this month I am working on FOIA that are from 2017.

Again, the requester has filed complaint after complaint (Requests for Review) Every complaint filed has been investigated by the AG's office, declared unfounded and each case has been closed without any further action by the village.

I have been working to try to get some order to the 100's and 100's of FOIA's over the past ten years. Some FOIA's had several hundred pages per FOIA.

### FOIA COSTS:

**Approximately \$1000.00 in wages**

**Approximately \$100.00 in attorney fees**
